

Our Services

Specialist Learning Disability & Autism
Community Based Living

About Elysium Care Partnerships

Our community based homes specialise in supporting people with mild to profound and multiple learning disabilities, Autism and sensory and communication difficulties.

We are experts in working with epilepsy and some of our homes are able to support people with forensic backgrounds.

Situated in the heart of local communities our small homes are ideal for young people transitioning into adulthood, who may be leaving residential schools or for those leaving hospital or who cannot be cared for in supported accommodation.

Our aim is to enable people to lead independent, meaningful lives as valued members of the community whilst being supported with the specialist care they need.

The aim of these services is to prepare individuals for living more independently through a programme of person centred care which incorporates the following elements:

- Individually tailored care and support
- Enablement of independent living skills
- Positive behavioural support
- Active client involvement
- Community engagement through sports, leisure, social and vocational opportunities
- Privacy, dignity and respect

Each of our community based services aim to deliver the following outcomes:

- Ensuring each individual achieves their full potential
- Improving quality of life through meaningful experiences and opportunities
- Development of greater choice and control
- Social inclusion through active community involvement
- Good physical and mental health
- Improved self-esteem and self-worth

We are committed to continually improving how we deliver care and support as well as the services we provide ensuring they each meet changing demand.

Team of Support

All our Community Based Services are well led by a Registered Manager with a team of experienced support workers.

Some of our services have the additional support of Nurses, Positive Behavioural Workers, Psychologists, Speech and Language Therapists and Occupational Therapists. All primary and secondary healthcare is accessed in the community.

Family and Friends

Elysium Care Partnerships are proud of the excellent relationships we have with the families and friends of the people we support. Families and friends are encouraged to play an active part in the lives of their loved ones and we ensure that their views and wishes are listened to and acted upon.

About Elysium Learning Disabilities and Autism

Elysium provides a range of specialist services for people with learning disabilities, autism and complex needs across England and Wales.

Our community based services deliver care and support which is tailored to the individual's needs, enabling people to lead independent, meaningful lives as active members of the community.

Our hospital services provide specialist timely, outcome focused rehabilitation in small shared or single person apartments. Linking to our community based services we provide the full pathway of care to ensure that the length of stay in hospital is kept to a minimum.
